

# Naval Construction Battalion Center

## Port Hueneme

### *"The Seabee Link to Readiness"*

## FEBRUARY 02 SITREP

### **N1 Resource Management**

#### **Paul Defreitas, Acting Director**

<mailto:DefreitasPB@cbchue.navfac.navy.mil>

- Compiled NCBC Port Hueneme workload data and work hour requirements for the FY03 RAP including the necessary effort to continue implementing the Logistics Improvement Roadmap (LIR).
- Completed 35% draft of the PWS for the ongoing A-76 Commercial Activity study at CED Port Hueneme.
- Updated OPN & O&MN obligation phasing plans to reflect CRA impact and positive results of our efforts to mitigate that impact.

### **N3/5 Operations & Plan Department**

#### **LCDR Brant Pickrell, Director**

<mailto:PickrellBD@cbchue.navfac.navy.mil>

- Completed MIP/MRC review and validation for the M17 Decontamination Units. This is moving extremely fast and well to meet fielding with the M17 units to the fleets.
- MUSE - completed assistance to NSWC Dahlgren in support of MUSE assets being utilized. This assistance was critical to effect required repairs to MUSE assets prior to continued operations.

### **N4 Logistics Department**

#### **CAPT Anthony Steigelman, Director**

<mailto:SteigelmanAE@cbchue.navfac.navy.mil>

High Visibility/High dollar funds received, executed as follows:

- NWCF Customers - \$4,376,827 for varied CESE requirements
- Brigades - \$250,000 each for 3M support
- DERF funds - \$2,626,496 for Emergency Response Vehicles (awarded in January02)
- OPN Sealift - \$12,415,000 for ELCAS(M)/\$900,000 for ELCAS(M) spares

ABFC/TOA Division:

- Completed Containerization Program in support of HTST2015 dated 15 Jan 02

SEALIFT:

- Completed the transferred 5 CSPs, 2 SLWTs and 10 CSNPs (various types of powered and nonpowered causeway sections) from NCBC PH to PHIBCB1 in Coronado. These causeway sections are remnants of a deleted Table of Allowance, and are critical to PHIBCB1s ability to meet their mission in light of their aging Lighterage assets.

- Began the process of developing Shipalts for Lighterage at the ACBs to enable the extension of their service life. This project will require the coordinated efforts of NCBC PH, NFESC and NSWC PHD throughout the remainder of FY02 and into FY03.

CESE:

- Developed/provided plan for execution of MTRV Congressional Plus-up.
- Issued 8 trucks to Marines.
- Processed a Priority 2 requisition for electric panel boards to Cuba in support of Operation Enduring Freedom.

Commodity Management

- Actively supported and participated in TA10 TOA review (CBUs). As a result new assemblies are being developed.
- CBR - Completed ULSS for M17 Decon unit

### **N6 Training Department**

#### **Roy Herd, Director**

<mailto:HerdR@cbchue.navfac.navy.mil>

- NCF NTSP Approval letter signed out of N44 23 Jan 02.

### **N7 Communications/Information Technology Department**

#### **Joe Sweeney**

<mailto:SweeneyJR@cbchue.navfac.navy.mil>

- NMCI Application Rationalization. NCBC PH reduced computer applications from a total of 269 to 154 for an overall reduction of 43% in anticipation of NMCI Assumption of Responsibility (AOR).

### **NAVFAC Information Technology Center**

John McCoy, Director

<mailto:McCoyJP@cbchue.navfac.navy.mil>

- NITC and the NAVFAC CIO, served as host for the Department of Defense, Defense Information System Agency, Central Design Activity conference held in Oxnard CA., on 23 and 24 January. This conference brings together senior representatives from the services, DFAS, DLA and other DoD components to discuss issues associated with information technology. Topics include DoD sponsored system development, information assurance/information security, DISA support/services and areas of mutual interest affecting IT within DoD. Conference attendees included senior executive service members, flag and general officers. The conference was coined a major success by the Commander, DISA WESTHEM.
